Best Sellers Rank: #488,323 in Books (See Top 100 in Books) #111 inÂ Books > Cookbooks, Food & Wine > Cooking by Ingredient > Pasta & Noodles

Customer Reviews

Not your classic cookbook; dedicated to pasta, this teaches you about the culture around pasta and all its uses. The instructions on how to make pasta should be more detailed. But everything I have cooked from here has been well received.

Back in 2002, this won an award for best Best Food Photography by The James Beard Foundation and I'll kid you not, this is one stunning, stunning book. It's good enough to leave out as a coffee table book and let people salivate while you're making the dinner!As far as the recipes go, all the ones I've tried have been spot on and I've made time and again.The cooking instructions are clear and, best for those of us who love exacting measurements, list both Metric and Imperial (aka the measurements we use in the US). This helps replicate the recipe exactly as she had intended it.This is not a beginner's cookbook. Many of these ingredients go beyond what you might want to shop for and may take more time than you're willing to devote. That being said, if you love to cook, and love Italian pasta, you can't go wrong with this book.

I used to be suspicious of beautiful cookbooks, not so with Signora De'Medici. Her recipes are

reliable and delicious and this book, like her others, is a pleasure to cook from. There is also interesting information on all types of pasta, regional information and reproductions of old images of pasta vendors, pasta makers, pasta wolfers etc. But best of all the recipes are simple, tasty and I've never had one that didn't work out really well.
