Stitch, Fibre, Metal And Mixed Media (The Textile Artist)

Synopsis

Alysn Midgelow-Marsden shows how to use both textile-based and mixed media techniques to create beautiful artworks using metal in the forms of shim, foil and woven fabric alongside many other materials. She shares her expertise in an inspiring variety of techniques from free machine stitching to gilding, embossing, needle felting, beading, printing, appliquÃ©, making stitched foil fabric and using dry decal transfer images. There are eight beautiful projects to inspire and instruct textile artists everywhere, including a lampshade, bauble pods, a memory lampshade, decorative panels and a tablet cover. Artists can take inspiration from the individual surfaces that make up the pieces, the completed projects, and from the developments from each project, which have full, instructive captions. An invaluable resource for textile artists looking for new and beautiful ideas.

Customer Reviews

Great information on ways to use a variety of mediums in mixed media. Directions are clear and easy to understand. Glad I purchased it as another great reference tool in my mixed media repertoire.

LOVE IT! Easy to understand and the illustrations are fabulous!

Great book. Good ideas, well Explained.

This was hard for me to rate because once I received it, I realized that it was not for me. It just didn't have many of the techniques I am interested in doing. I returned the book.

As promised and quick delivery

oh my!!!! what a wealth of things to learn and play with. I love this book!!!

Just received. Anxious to try some of the projects....So Far, easy read and nice reproductions of the artwork.

For wife.
