You Were Born Rich

Synopsis

Zig Ziglar may be the master motivator, Mark Victor Hansen of Chicken Soup For the Soul, the master storyteller; Anthony Robbins may be the guru of personal development, but Bob Proctor is the master thinker. When it comes to systematizing life, no one else can touch him. He is simply the best. Bob Proctor collects thoughts like Imelda Marcos used to collect shoes. He strings them together in exquisite arrays; one thought leading logically to the next until a whole method has been constructed. In *You Were Born Rich*, Bob Proctor has done it again, this time taking you step by step to the surprising discovery that success is not always reaching out for something that you don't have but rather only reaching over and rearranging the pieces already there. The great value of this book is that you can instantly apply the conclusions to your own life. It will begin to impact you long before you reach the last chapter. --This text refers to an out of print or unavailable edition of this title.

This program is the center of Bob Proctor's teaching for the past decades and while the name has changed with the years, the substance has remained the same. The basic foundation of this book is that there is a Creative Energy in this universe which is able to "interact" with our thoughts in order to bring to the Physical Plane what is in our Mind. Compared to the old books, most notable *The Science of Getting Rich* and *Think and Grow Rich* which Bob acknowledges to be some of his sources, this book has been written in a colloquial manner, understandable by a 7th grader while,

because of the style used, the reading of the older books require more time to read and understand. But ultimately the secrets are simple and here they are:- write down what you want to achieve as if you have already got it (new car, job, salary increase, etc)- act AS IF you already ARE in possession of it (act as if you already got the promotion and got the salary increase)- repeat continuously so that this information becomes TRUE to your brain (new neuroconnections built in the brain): latins used to say "repetita iuvat" (good to repeat)- BE CERTAIN that what you want is already there as Jesus said (gospel of Thomas) "God is outside you, inside you and all around you"

I absolutely love this book and the changes I have made in my life since first being introduced to it by a friend of mine, David Nelson, from Littleton, CO back in 1998. Bob Proctor gives instruction in a simple, easy-to-understand way that will help anyone with a mind to be helped. He even gives advice on how to work with creditors while you're developing yourself and improving your financial life. He is among the best teachers on the conscious and subconscious mind, and how what goes on inside of us determines what shows up on the outside of us. Mr. Proctor seems to believe in giving a person an "assignment" to do to reinforce what he teaches. And, if a person is serious about changing and improving their life, they will not only read this book, they will apply what they read. Otherwise, it's just another "good book". I love it! I use it as my "Reference Manual" for improving my life since I first read it back in 1998. I've sold many copies of it here on .com. and I encourage all of you to get your own personal copy and use it as your own personal reference manual to change your life. I'm sure you will agree that you made a great, lifetime investment in yourself - Excellent Knowledge!

I want to recommend this book and all the products of Bob Proctor to anyone who is interested in a better life. Ignore the comment by one reviewer here who calls Bob "just another old con man!" I can assure you, from my own personal experience, that since the day I first listened to Bob Proctor expressing his ideas on responsibility, forgiving, attitude control and goal setting, as well as believing things can be done and ignoring the so-called facts which seem to stand in your way, my life has changed enormously. I owe so many of my personal and financial/career achievements to the insights and understandings I gained from listening to Bob Proctor's fabulous motivational tapes and that includes this one, You Were Born Rich. anyone who thinks Bob is just a con man is a loser, and deluding themselves into failure. I pity them, because Bob Proctor can transform anyone's life, if only they will listen with an open mind and act with an ounce of courage!

Bob Proctor simplifies what I already believed and knew since I was a young girl back in High Point housing projects. The clarity and simple words assist in processing the information and sealing this age old Truth in your mind. As a speaker and workshop presenter I quote from and suggest this book and other books Bob has written. My workshop participants say their lives have been changed by Bob sealing the deal of their Abundant Riches. Great information to make into application. Download this magnificent book into the memory of your mind, you'll be glad you did!

This is an amazing book and one of the best I have ever read. I could not put it down. I am truly at a lost for words. I have been pretty successful in my life, having created a million dollar company and living a very comfortable life. This book opened my eyes to what is possible. That I don't need to just settle; that God called us to live a life of abundance. As a result of this book I have the following daily habits: 1. Waiting with Expectancy 2. Let Go and Let God 3. As if I already received my dreams 4. Not being moved by current circumstances 5. Visualizing myself having great wealth 6. Being disciplined This book blessed my life.

This book is a very interesting read and the stuff Bob talks about really works! You have to put it into practice & to do this effectively you need to read the book several times and underline key points. Use it as a tool! I have met Bob personally and listen to his cds & watch his dvds regularly and rate his material very good & helpful. Bob is a very nice guy, unfortunately he tends to surround himself with sleazy people trying to sell you courses promising you the moon. These people that work for him do not look like or act like winners and this doesn't do him justice. Credit to Bob is people he has mentored like Loral Langemeir (best selling author & real estate investor), Margie Aliprandi (neways International top distributor), Leslie Householder (best selling author & mom of 7 kids). I myself have been having my successes thanks to his material.

This is an easy read. Offers practical theories that can be applied by anyone, anywhere and at anytime. This book was written as a road-map enabling you to reach any goal you would like to reach. Read it, review it, but do your self a favor and act upon it. (I was fortunate enough to pick up the ebook for free at [...] - now you have no excuses!) Thanks for listening. I hope you get everything you want in life!
