Customer Reviews

If her first book (4-Way Bargello) was good, this one is better! There are, by the author's count, 67 designs given; 25 are 4-way, 32 are regular bargello, 9 "needlepoint" (read: tent), and 1 combination. I think her explanations are clearer here and the book is better "constructed" in the progression of patterns.

This book is written by someone who knows what they are doing. That is always good (understatement alert). Sadly that is not always the case when it come to *how-to* books. I can always depend on books by Dorothy Kaestner. Most are out of print, I am glad one can still buy them here.

I ordered this for my mother who has been doing needle point, knitting, etc her entire life. Bargello is hard to find in the stores so we went to trusted . She is very pleased with the book and said there were many beautiful patterns in it. The shipping was much quicker than I expected.

Well, perhaps not, but her designs are just gorgeous. My only problem with her books is the trouble I have choosing a design and choosing colors - they are all just so great.

This book is exactly what I needed for my collection of Needlepoint books. All my other books are different I am looking forward to trying out these new patterns.
