# Barron's NCLEX-RN Flash Cards, 2nd Edition

## **Synopsis**

This brand-new set of 400 flash cards will help nursing students succeed on the National Council Licensure Examination, which certifies them as registered nurses. The cards are divided into two categories: 300 cards identify medications and their uses; and 100 cards present questions typical of those found on recent NCLEX-RN exams. Each medication card names a medication on the front and lists its uses, how it is administered, and its side effects on the back. The 100 test question cards present answers on their reverse side and cover topics that include safe care and environment, safety and infection control, health promotion and maintenance, and other subjects that nursing students will encounter when they take the exam.

## **Book Information**

Cards: 408 pages

Publisher: Barron's Educational Series; 2 edition (May 1, 2016)

## **Customer Reviews**

This set of flash cards is perfect for studying for NCLEX. It has questions and rationales. It also comes with a sorting ring and the cards have punched holes so you can take a few to go without toting the entire box.

Really needed a reference card to tell you which drugs where on which card instead of having to hunt for them. The simplicity of the cards is nice though.

love these! the best thing for a nursing student!

Very good set of flash cards. The questions are very helpful but should be more than 100.

They didn't help me none , their pretty much on pharmacology . I thought they were a variety of Nclex questions which that's what I was looking for.
