## Customer Reviews

Considering the price for each document for sale at my Contractors school, this is a Huge bargain. My only problem is getting the disc to automatically run on win 10, but, I can still get to the forms... I'm sure the problem is a simple fix, I just haven't had the time Yet...I highly recommend this!!!

The book itself has some good information, but the cd is out of date and can't be used on newer computer systems.

Has all sorts of forms very helpful!

a good guide if you need help with contracts or trying to become a contractor.

Great reading really helpful!

Very nice book

Just what my son-in-law wanted. At least that's what he told me when He received it so I have to take his word for it.

Book is very helpfull ,but cd is cheap and vibrates in player..disappointed thought their books would be better than their tools.
