I gave this book a shot as the only meat I eat is chicken. And always cooking it on my George Foreman grill can get kind of boring. Happy to say there were many ways here to spice up the chicken. They are easy and straight forward enough that even I can understand them, which is a feat. If you are looking for new ways to spice up your chicken, you've found some great recipes.

I just loved all these recipes. I have been looking for something different to try for my kids and husband and this book is absolutely magic. All the recipes in the book are really simple to make. I have prepared some already for my kids and husband and they both loved them. No left overs on
