# Wrap It Up: 100s Of Fast, Fun, And Festive Gift Wrapping Ideas

## Synopsis

Wrap It Up offers hundreds of clever and inviting ideas to give your presents an extra flourish that loved ones are sure to appreciate. Using both traditional wrapping paper and ribbons, combined with some simple trims found in craft or stationery stores or unusual materials like maps, posters, cellophane, or newspaper, there is a wide range of inviting schemes for all occasions. With inspired color combinations and clever use of materials now you can bring a decorative touch to even the simplest package. Instead of using ribbons for bows, try reusing materials found around the home like twine, buttons, decorative buckles, scarves, or even dog collars. Anything can be used as an unexpected decoration. There are also traditional ribbon-wrapped and flower-bedecked packages, but done in a unique manner with ideas that you don't see elsewhere, like threading buttons through the ribbons before tying them around the packages, or wrapping a strip of torn newspaper around the middle of the package, under an elegantly tied bow, for an interesting and striking effect. With Wrap it Up you can turn even the most ordinary gifts into something special: a unique present for someone you care about.

## Customer Reviews

This is my second book on gift wrapping ideas and it does not disappoint. Lots of wonderful images and great ideas with basic, easy to find materials. If you are looking for a book with step-by-step instructions this isn't for you, but if you want a multitude of inspiring ideas this book is perfect. All of the designs are simple and are rather straightforward. The only thing I wish there would have been

a little more information on would have been some of the interesting pleating he did and some information on sources for materials. I would recommend this book along with "Presentations" by Carolynne Roehm.

I love nicely wrapped gifts. There are several techniques in the book. I like using bows on my greeting cards. I have already tried the butterfly bow on a couple of my cards.

it meet my expectations, I love this bookits really useful and greatit teach you how to do the job very well

Great ideas. i found the book very colorful and creative
