Customer Reviews

I have purchased many of the authors other books and was pleased. This book was well lets see.... ahhhh... abstract furniture. Sorry Ralph I know you photograph it but you seem to reaching for this stuff. Instead of rustic this furniture should be labeled "made by talented individuals.....but to scarry to use". yes thats the ticket. Just plain scarry. Almost as bad as my spelling. Pass on this book.

I so enjoy spending any free time browsing any log or rustic home books I can find. Ralph R. Kylloe does just an excellent job of taking you right into the rooms and spends much time right down to every little detail to make sure your experience with his publishings satisfies your desire for the lodge time of yester-year experience. Makes you just want to jump into the pages and live there!

this is one of the most favorite cookbooks I have ... & I have and use a LOT. Its full of unique, one-of-a-kind recipes one find ANYwhere else, and to boot, its every genre inside!! (ie, every sort of meal, cookie, appetizer, etc etc). I LOVE it. ... again, some killer recipes in here.

Great pictures and ideas in this book
