Customer Reviews

Lots of good code examples. Think it is worth the money. Would recommend this book for other developers. Thank you.

The book is a reference covering all the classes that you need to be or have a need to know. It's easy to get to the information you are looking for providing the necessary information to develop your SharePoint solution.

A very comprehensive guide for both beginners and experts developers on SharePoint

Good book for reference

Really amazing book for developing sharepoint solutions in high standard!!

Good book. Points you in the right direction.
