# An Event To Remember: Designing Spectacular Special Occasions

## Synopsis

Jerry Sibal is no mere party planner. He's a world-renowned designer of unforgettable celebrations of every description. Each of Sibal's projects;whether for a private birthday party or holiday dinner, a lavish wedding or bar/bat mitzvah, a corporate retreat or charity ball;is a distinctive work of art. An Event to Remember presents a portfolio of some of Sibal's finest and most visionary work;with dramatic photographs that will make you wish you'd been there. Throughout, Sibal reveals how he coordinates architecture, lighting and audiovisual systems, interior decor, tabletop arrangements, and his trademark floral extravaganzas to create such gloriously spellbinding environments. Venues from all over the country are featured, from New York City's Rainbow Room, to Miami Beach's Setai Hotel, to Atlantic City's Borgata Casino, to outdoor settings such as the Brooklyn Botanic Garden and a California hillside with breathtaking Pacific Ocean views.

## Customer Reviews

I purchased this gift for my sister, so I am writing per her review. She has been working in catering for several years now and has always wanted to start her own party-planning company. This book provided her with many great ideas and suggestions that she is sure she will use at one point or another.

If you love Preston Bailey, you will love this book as well. This is an amazing book with beautiful pictures. Yes the parties and arrangements are more than most people could ever afford; however, it is a great book for inspiration. If you are a visually inspired person, you will spend hours looking at

this one.

This is a delightful, inspirational book. Add to your library if you enjoy doing events as I do! It has become one of my favorites...

This book is full of magnificent photography. Pages and pages of really over-the-top and exciting party photos. The only downside? Some of the displays may be too garish and excessive for my taste. All in all, it is well worth getting and a nice addition to my collection of entertaining and party planning books.

As the title says, I was quite disappointed. The only thing that was impressive was pretty much the centerpiece on the cover. Not to bad mouth the book too much, there were some very nice pieces inside the book. I do agree with one of the reviewers however, saying the quality of some of the photos were absolutely horrible! I get a headache looking at some of them! Some photos were too harsh on the eyes and it seemed like the editor decided to try too hard doing his job and enhanced the contrast of the photos. Then there were some arrangements in a couple of ballrooms that made it seemed like Mr. Sibal was high on something. One of the events looked like a jungle had exploded and no one stayed around to clean it up! Save your money on another book!

As an Event Planner, I'm always on the lookout for ideas & a way to explain certain styles to my clients. Many people planning an event have no idea the range of possibilities available to them, nor do they know how to express their vision into words. These books help.
