Customer Reviews

I love my rice cooker and use it all the time! This book gave me some good ideas for making the most of this neat little appliance. You could even take it on a (budget) vacation and make some things in your hotel room!

Of the twenty-five recipes in this book, I honestly found three worth trying and those were the only ones that could easily be converted to use with my fuzzy logic cooker. This book is meant for the one setting rice cooker and many of the recipes could just as easily be made with a single skillet on a hot plate. The search continues for the actual "ultimate" rice cooker cookbook.

I will probably try about half the twenty five recipes, but it has given me good ideas. The lemon and

shrimp risotto is worth a try.

I liked all the recipes that I tried.I would recommend this book to family and friends.I gave it 4 stars cause it is a very good book.

Lots of delicious recipes

I didn't find anything in this cookbook that I would make in a rice cooker or other tool .

Not a single - not a single - not one single recipe was of any use for me what so ever - Thanks for asking
