Seventeen Ultimate Guide To Beauty: The Best Hair, Skin, Nails & Makeup Ideas For You

Synopsis

When it comes to teen beauty advice, no brand is more trusted than Seventeen, the #1 best-selling monthly teen magazine. *Seventeen Ultimate Guide to Beauty* is a girl's handbook to celebrating her natural beauty. It's packed with clear, customized advice that helps make the most of her skin tone, her face shape, her hair texture, and her style! Each chapter is filled with detailed how-tos, amazing inspiration, and awesome advice from *Seventeen*'s editors and the Beauty Smarties, our real-girl beauty experts, to help the reader have fun with her look! *Seventeen Ultimate Guide to Beauty* is broken down into three main sections: makeup, hair, and a resource guide. Makeup is organized by five beauty vibes—Girly, Boho, Classic, Glam, and Edgy—and shows you how to look great for any occasion (school, weekend, party, date). Each vibe offers exclusive makeup looks from *Seventeen*'s Beauty Smarties, insider secrets from celeb experts, and an inspiration board filled with runway, red carpet, and real girl ideas. Hair is organized by styles: braids and twists, waves and curls, updos and buns, sleek and straight, and ponytails. Each chapter includes easy-to-do styles for every occasion, a Smarties spotlight, celeb tricks, and an inspiration board. The book ends with comprehensive resource guides to getting clear skin and great nails—and gives detailed info on getting ready for a big event, like prom or sweet sixteen.

Ann Shoket and the editors of seventeen magazine published this guidebook for teen age girls to help them get their makeup, hair and even their nails done in a polished and appropriate manner by filling it with tips, techniques, big colorful photos and how-to steps. The five "makeup vibes" introduced in the book make perfect sense for girls to learn about the different ways to do hair and makeup including Girly, Glam, Classic, Edgy and Boho. There is a section highlighting several hairstyles such as waves and curls, braids and twists, sleek, ponytails, and updos. The last section of the book covers taking care of skin and nails. The book is filled with great photos, lots of easy to understand tips and it is written in a style that works for teenagers. While there are many recommendations for colors and shades, there are no product endorsements or recommendations. Parents can be comfortable with the way the book takes a conservative view for applying makeup and the hairstyles are also moderate versus purple spiked styles. The book would make a nice gift to any teenager starting to show an interest in makeup, skin care, nails and hairstyling.

I absolutely loved this book. Not only do you receive hair, skin, makeup and nail ideas for you to try at home, you get to see what they really look like on celebrities. This book is perfect for any teen girl or young adult who are looking for new ideas to try out. One thing I loved about the book was that in the back of the book they give you all the page numbers for each different section, like, where you can find all their hair tutorials or nails. The book is filled with A-List celebrities and Seventeen's Beauty Smarties. The book also has the most beautiful elaborate pictures to capture the beauty and ideas for you. This is definitely something I'll be using and my teen niece will be borrowing from me.

My 11 year old daughter asked for this book for her birthday. She's just learning to experiment with make-up and loves fashion and this book is perfect. The title of the book is exactly what it is...an ultimate guide to beauty. This was a great purchase and we were not disappointed.

This really is the ultimate guide to beauty. It has great ideas for every makeup style and very easy hair styles. Plus it tells you the best kinds of products for your skin type and great mani pedi tips. It also provides a customizable guide for the best colors for your skin tone and best products for your hair type. The only thing that would make it better would be if it had given the best brands of hair and makeup products.

bought this for our middle school library and it has been a great success, especially with a special needs student who is a reluctant reader. This books caught her attention and she has read it

voraciously

Bought this book as a present for my step sister, along with her first makeup sets and stuff - she used the book immediately and was able to put on some makeup without looking like it was the first time she was using makeup (which it was). Good purchase for a young girl learning about beauty and subtlety.

this book has makeup and hair ideas for everything type of event and everyday of the week, no matter what your style is. this is perfect for any girl you has an interest in nails, makeup, or hair.

The product itself is fine, book was in great condition. The problem is the actual content. It lacked enthusiasm and knowledge about the subject - beauty - and I found myself yawning at times. It didn't tell me anything I didn't already know. Very basic information, how to apply eyeliner and several sections divided by your "style," such as boho, rocker glam or whatever, prep, etc. Overall, it was kind of boring. Good for beginners though.
